

Manufacturers Zylon® Vest Exchange Programs

In light of the Department of Justice's advisory that as of September 26, 2005, any body armor that contains Zylon® may not comply with NIJ standards, several manufacturers have announced Vest Exchange Programs for their Zylon®-based vests. If you possess any vest that contains Zylon®, you are urged to review any product warranty and consult with counsel. You should contact your Zylon® vest manufacturer, distributor and vendor to learn about any vest exchange programs that may be available. The list below contains links only to some of these programs.

Armor Holdings, Inc. (American Body Armor, Armor Safety Products Co., Protech Armored Products)
